PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience designing and building multi-role web applications using Spring Boot, Hibernate, Spring Data JPA, and MySQL. Proficient in end-to-end development — backend REST APIs, ORM-based data persistence, and frontend integration using HTML5, CSS3, and JavaScript. 2025 CSE graduate seeking a Java Developer or Software Engineer role to contribute to real-world engineering teams.

TECHNICAL SKILLS

Languages: Java (JSE, J2EE), JavaScript, SQL

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate ORM, Swagger / open API

Web Technologies: HTML5, CSS3, Bootstrap, JSP, React.js

Databases: MySQL (Schema Design, RDBMS, Query Optimization, JDBC)

Developer Tools: Git, GitHub, Maven, Postman, Eclipse, IntelliJ IDEA, VS Code

Concepts: REST API, ORM, RBAC, SDLC, Agile (Scrum), Unit Testing, Data Structures and Algorithms

Soft Skills: Problem-Solving, Team Collaboration (Cross-functional teams), Strong Communication

PROJECTS

Quick-Drop — Role-Based Courier Management System

Technologies: Java, MySQL, Servlets, JSP, JavaScript, JDBC, HTML, CSS, Bootstrap

- Architected a 3-tier role-based web application (Admin / Customer / Agent) in Java with distinct access permissions per role, enforcing RBAC patterns used in enterprise backend systems.
- Built server-side rendering with JSP and client-side form validation in JavaScript, separating concerns cleanly between presentation and business logic layers.
- Designed normalized MySQL schemas with CRUD operations supporting real-time shipment tracking across 3 user roles, maintaining referential integrity and transactional consistency.

Dual Access Control for Cloud-Based Data Storage & Sharing

Technologies: Java, Role-Based Access Control, MySQL, Servlets, JSP

- Implemented a dual-layer access control mechanism with owner-level and delegate-level permissions to prevent unauthorized data access, applying core authentication and authorization principles.
- Designed a modular, scalable architecture to manage secure data sharing between multiple users, minimizing permission-overlap vulnerabilities across user sessions.
- Applied AES encryption for data-at-rest protection in cloud storage workflows, ensuring data confidentiality independent of storage-layer security.

EDUCATION

Bachelor of Technology — Computer Science & Engineering

Malla Reddy Institute of Technology and Science, Hyderabad (JNTUH)

July 2025

CGPA: 7.3

Senior Secondary — MPC (Mathematics, Physics, Chemistry)

TSWREIS Annapureddypalli Boys, Annapureddypalli (TSBIE)

May 2021

CGPA: 9.3

Secondary School Certificate (10th Grade)

Govt High School Burgampahad (SSC Board)

March 2019

CGPA: 8.3

CERTIFICATIONS & ACTIVITIES

- Java Full Stack Development Training — [Vcube Software Solutions]
- Completed Soft Skills coursework in TCS iON Edge-Young Professional.
- Software Engineering Job Simulation from Accenture(forage).
